

Academic Journal Entry

Here's an easy format to use. This should be written in essay format similar to how a research paper would look like; however, the academic journal focus is very intentional and connected to your gaining knowledge for your journey on becoming an anti-bias educator.

1. Identify an anti-bias issue.
2. State why this issue will help you on your journey.
3. Identify questions you want to address
4. Answer the questions.
 - research from multiple perspectives (viewpoints)
 - document your sources
5. Identify next steps:
 - additional questions
 - next possible topic, etc.
