5. Course Web Sites & Online Tools

Mr. Willis' academic web site, http://staffwww.fullcoll.edu/mwillis serves for course guidelines only.

However, you must learn how to navigate and use CE6/8 within the first few days of classes. To get started in CE6/8, I suggest that you go to http://online.fullcoll.edu/ and check out their CE6/8 tutorials.

TO LOG IN TO CE6/8: Information on how to log into CE6/8 can be found at the Fullerton College Distance Learning Homepage (http://online.fullcoll.edu/)

When you have successfully logged in, you will come to a page called My Courses, which lists all the courses using CE6/8 in which you are enrolled. Click on ESC100 F Physical Geology (online). You'll come to the course home page with a menu bar on the left side of the screen.

You may also find the textbook web site useful: http://www.wwnorton.com/college/geo/egeo3/

More information on these tools is provided in the sections that follow. However, if you have questions after reading the following sections, please e-mail Mr. Willis, mwillis@fullcoll.edu (note: I do not typically respond to e-mails that do not have subject lines)
