Embed Your YouTube Video in Your Blackboard Item
By Scott Badger

1. Go to the YouTube video.

2. Click the <Embed> button.

3. Copy the HTML object code.

4. In your Blackboard course, move to location where you want to embed the YouTube video.
(Note: In this white paper I’m placing the embedded YouTube video in the Week 2 folder.)

5. Click Create Item.
6. Turn off the **Visual Editor**.

7. Enter in a name.

8. Place your insertion point in the Text window and then paste in the copied object HTML code from the YouTube video by doing one of the following procedures.
   a. Hold down the CTRL key and press the letter V.
   b. Select Edit > Paste.
9. The object HTML code has been placed in the Text window.
10. Click **Submit**.

11. Your YouTube video has been embedded in your Blackboard item.
